

For each question, reflect on the following:

1.
- What were the main outcomes of your discussion?
2.
- Has the group identified any concerns, issues, barriers, or challenges that should be considered? Note them down
3.
- Take note of potential actions that can be taken to mitigate these barriers or challenges and identify who can or should take action (e.g., the robot company, politicians, stakeholders, users, unions, etc.)
